

## **6811: RESOURCE CONSERVATION MANAGEMENT PROGRAM**

It is the policy of the Camas School Board that the district encourages and supports the wise use of natural resources and maintains programs that support conservation of energy and other natural resources. The goal of this policy is to create and maintain sustainable, healthy school environments and fiscal responsibility through long-term resource conservation management planning. Camas Public Schools will model environmental stewardship by instituting a plan to educate students, teachers and staff about the importance of conserving natural resources and lessen environmental changes.

It shall be the joint responsibility of the Superintendent, administrators, teachers, students and support personnel to aid in the implementation of the Resource Conservation Management Program to ensure the achievement of energy savings throughout the Camas School District.

The Superintendent, or his/her designee, shall implement, direct, monitor, evaluate, and periodically report district energy conservation efforts to the Board.
