Food and Beverage Consumption

The board recognizes that staff members and others associated with the
district are expected to pay for their own food and beverages. However,
under certain circumstances when the district is deriving benefit, the
district may expend funds for food and beverage consumed by staff and
others while in the conduct of the business of the district.
The superintendent is directed to establish procedures which reflect the
intent of the board to provide for reasonable food and beverage
consumption while in the conduct of business that is of benefit to the
district. Such expenditures shall be supported by statements that show:
A. The occasion for incurring expenses;
B. The nature of expenses that were incurred; and
C. The general nature of the business that was being conducted.
